**Former Park 10 Municipal Utility District Tract – Park View Drive @
Holly Oak Drive, Houston, Texas**
Contract No. 53487, GFS No. R-0509-07-2, Task 02-25
Quantum Project Number: H03008

Dear Mr. Iqbal,

Quantum Environmental Consultants, Inc. (Quantum) has conducted an Environmental Transaction Screening (ETS) evaluation for the property located at Park View Drive @ Holly Oak Drive, Houston, Texas, which is currently owned by the City of Houston. This ETS is provided in accordance with the Authorization letter from Mr. Michael K. Ho, dated January 29, 2003.

The scope of services for this ETS included: a site reconnaissance; a review of available records of State and Federal regulatory authorities for the subject property and surrounding properties; the completion of an ETS questionnaire based on visual observations and owner/occupant interview(s); and reviewing fire insurance maps when available and/or consultation with the local fire department regarding industrial activities on the subject property or surrounding properties. The regulatory review and ETS questionnaire for this site are provided as Attachments 1 and 2, respectively. No media sampling, asbestos survey, or lead-based paint sampling were included in the scope of this ETS.

Quantum performed this Environmental Transaction Screening in accordance with generally accepted practices of the industry and guidelines from ASTM 1528-00, except where City of Houston requirements for conducting a Transaction Screening superseded or exempted the ASTM guidelines. Personnel qualifications are provided in Attachment 3.

Based on the ETS evaluation process described above, the following findings and conclusions are provided:

Mr. Zafar Iqbal
February 28, 2003
Park View Drive @ Holly Oak Drive
Page 2

- The subject property is located south of the intersection at Park View Drive @ Holly Oak Drive and consists of 2.5 acres of vacant land. No structures are currently located on the subject property. No visual staining of soils was observed on the subject property. According to information provided by the City of Houston, no Water Well Plant was located on the subject property.
- Predominant properties in the area are residential consisting of apartment complexes. The subject property is bound to the north by an apartment complex, and Holly Oak Drive borders to the west, beyond which is an additional apartment complex. South and east of the subject property is a heavy wooded area, which is west of the Addicks Reservoir. A photograph of the subject property taken during the site reconnaissance is provided in Attachment 4.
- Mr. Paul Khambhati completed the ETS questionnaire on behalf of the property owner. According to Mr. Khambhati, this site has no environmental concerns, based on the information from their files and site reconnaissance,.
- According to the USGS Addicks, Texas Quadrangle Topographic map dated 1982 (Attachment 5), surface water drainage in the area is generally towards the east.
- No pole-mounted transformers were identified on the subject property or on adjacent properties during the site reconnaissance.
- Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map No. 48201C0620J indicated that the subject property was within the 500-year flood plan for Harris County. Additionally, no fault lines were identified on or near the subject property during the walk through. A FEMA map is included in Appendix 5.
- The National Priority List (NPL) for Uncontrolled Hazardous Waste Sites, issued by the Environmental Protection Agency (EPA), lists uncontrolled hazardous waste sites that require additional investigation to determine if they pose risks to the environment or to human health. No NPL sites were identified within a one-mile radius of the subject property.
- The Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) is a compilation of known or suspected uncontrolled or abandoned Hazardous Waste Sites which are under investigation by the EPA for the release or threatened release of hazardous substances. No CERCLIS sites were identified within a one-half mile radius of the subject property.

- The No Further Remedial Action Planned Report (NFRAP) was reviewed for facilities located within a one-half mile radius of the subject property. The NFRAP contains information pertaining to sites which have been removed from the EPA published CERCLIS database. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration. Neither the subject property nor adjoining properties was identified as an NFRAP site.
- The Resource Conservation and Recovery Information System (RCRIS) Corrective Action Sites (CORRACTS) database includes RCRIS sites with reported corrective action. No CORRACTS sites were identified within a one-mile radius of the subject property.
- The Resource Conservation and Recovery Information System (RCRIS) treatment, storage, and disposal (TSD) facilities pertain to facilities, which treat, store, or dispose of hazardous waste. No RCRIS-TSD sites were identified within a one-half mile radius of the subject property.
- The RCRIS Large-Quantity Generator list contains those sites, which generate more than 1,000 kilograms of hazardous waste per month. No RCRIS large-quantity generator sites were identified within a one-quarter mile radius of the subject property. The subject property and adjoining properties were not identified as large-quantity generator sites.
- The RCRIS Small-Quantity Generator list contains those sites, which generate between 100 and 1,000 kilograms of hazardous waste per month. No RCRIS small-quantity generator sites were identified within a one-quarter mile radius of the subject property. The subject property and adjoining properties were not identified as small-quantity generator sites.
- The Emergency Response Notification System (ERNS) list is a national database containing information from spill reports made to Federal authorities including the EPA, the United States Coast Guard, the National Response Center, and the Department of Transportation regarding reported releases of oil and hazardous substances. The subject property was not identified as an ERNS site.
- The Texas State Superfund Quarterly Status Report contains information on abandoned or inactive hazardous waste sites in the State of Texas that do not qualify for federal Superfund action and cannot be resolved under the

hazardous waste program or an agreed administrative order. Potential State Superfund sites receive a Hazard Ranking Score and a remedial investigation/feasibility study. If these studies suggest that the facility poses an imminent and substantial endangerment to the environment or public health and safety, the proposed site is formally listed on the State Superfund report. The Texas State Superfund is equivalent to the State CERCLIS. No State Superfund sites were identified within a one-half mile radius of the subject property.

- The TNRCC Permitted Solid Waste Facilities (LF) Directory is a comprehensive listing of all reported active and inactive permitted solid waste landfills and process facilities operating within the State of Texas. No LF facilities were identified within a one-half mile of the subject property.
- The Texas Natural Resource Conservation Commission (TNRCC) Petroleum Storage Tank (PST) list is a comprehensive listing of all registered PSTs located within the State of Texas. No PST sites were identified on the subject property and adjoining properties.
- The TNRCC Leaking Petroleum Storage Tank (LPST) file is a comprehensive listing of all reported leaking aboveground and underground petroleum storage tanks registered within the State of Texas. The subject property was not identified as a LPST site or any adjoining properties.
- The Texas Voluntary Cleanup (VOL) sites database includes information on sites enrolled in the Texas Voluntary Cleanup Program (VCP). These sites have experienced some type of release or contamination of which cleanup is voluntarily initiated, typically by the property owner, following requirements within the Texas Voluntary Cleanup Program for an ultimate "No further action" letter by the TNRCC. No VCP sites were identified within a one-half mile radius of the subject property.
- The Houston Fire Department (HFD) was contacted regarding the subject property. Based on the letter provided in Attachment 6, no records were identified for this site with either the HFD or fire insurance carriers.

Based on the information provided above, the ETS evaluation has revealed no recognized environmental conditions in connection with the subject property, which would warrant further investigation at this time. User provided information is included in Attachment 7.

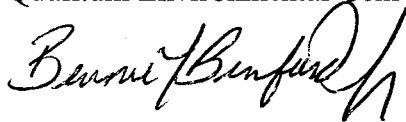

This Environmental Transaction Screening evaluation was performed by Quantum in accordance with applicable ASTM Standards and generally accepted

Mr. Zafar Iqbal
February 28, 2003
Park View Drive @ Holly Oak Drive
Page 5

practices of the profession. Quantum observed the same degree of care and skill generally exercised by the profession under similar circumstances. Quantum's observations and findings cannot be considered as scientific certainties. The conclusions are based on our professional judgement regarding the significance of the limited information available during the course of this study. Specifically, Quantum does not and cannot represent that the subject property contains no recognized environmental conditions, and/or other latent conditions beyond that observed by Quantum in the course of this ETS.

If you have any questions or comments, please feel free to contact us at 713-961-9975.

Sincerely,
Quantum Environmental Consultants, Inc.

EXECUTIVE SUMMARY

The EDR-Transaction Screen Map Report is a screening tool which maps sites with potential liability or existing environmental liabilities. Specified government databases are searched in accordance with ASTM Standard E 1528-00.

The ASTM E 1528-00 Transaction Screen property due diligence standard consists of four major components: a government records check, an historical inquiry, an owner/occupant questionnaire, and a site survey. This report contains the results of the government records search on the target property and surrounding area in accordance with the government records search requirements of the ASTM E 1528-00 standard.

The results of the government records search in accordance with **QUESTIONS 21 and 22** (page 15, E 1528-00) of the standard indicated the following:

QUESTION 21

Do any of the following **Federal** government record systems list the property or any property within the circumference of the area noted below:

National Priorities List (NPL)	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1 Mile
CERCLIS List	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/2 Mile
CERCLIS NFRAP List	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/4 Mile
RCRA-CORRACTS Facilities	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1 Mile
RCRA-TSD Non-CORRACTS Facilities	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/2 Mile
RCRA LQG Facilities	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/4 Mile
RCRA SQG Facilities	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/4 Mile
ERNS	<input type="checkbox"/> on the property	

QUESTION 22

Do any of the following **state** government record systems list the property or any property within the circumference of the area noted below:

State equivalent to NPL	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1 Mile
State equivalent to CERCLIS	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/2 Mile
Solid Waste/Landfill Facilities (SWF/LS)	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/2 Mile
Leaking Underground Storage Tank List (LUST)	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/2 Mile
Underground Storage Tank List (UST)	<input type="checkbox"/> on the property	<input type="checkbox"/> Within 1/4 Mile

In accordance with Section 5.6 (page 10, E 1528) if the answer is **(yes)** or **unknown**, then the user will have to decide what further action, if any, is appropriate. Answers should be evaluated in light of the other information obtained in the transaction screen process. If the user decides no further inquiry is warranted, the rationale must be documented. If the user decides that further inquiry is warranted, it may be necessary to contact an environmental professional.

Additional Research - ASTM Supplemental Government Databases

To provide additional information which may assist in the assessment of other components of the ASTM E 1528-00 Transaction Screen, EDR also searches government databases **not** included in Questions 21 and 22 of ASTM E 1528-00. This information may be useful in completing the owner/occupant questionnaire.

The results of the search of these additional government records indicated affirmative **(yes)** responses on the target property for the following government databases:

No affirmative responses found in the non-ASTM E 1528-00 government databases.

- ★ Target Property
- ▲ Sites at elevations higher than or equal to the target property
- ◆ Sites at elevations lower than the target property
- ▲ Coal Gasification Sites
- National Priority List Sites
- Landfill Sites

- ⚡ Power transmission lines
- ⚡ Oil & Gas pipelines
- Wetlands

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Elapsed ASTM days: Provides confirmation that this EDR report meets or exceeds the 90-day updating requirement of the ASTM standard.

FEDERAL ASTM STANDARD RECORDS

NPL: National Priority List

Source: EPA

Telephone: N/A

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/24/02

Date Made Active at EDR: 12/09/02

Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 11/04/02

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

Source: EPA

Telephone: 703-413-0223

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 12/13/02

Date Made Active at EDR: 01/15/03

Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 12/26/02

Elapsed ASTM days: 20

Date of Last EDR Contact: 12/26/02

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Source: EPA

Telephone: 703-413-0223

As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

FEDERAL ASTM SUPPLEMENTAL RECORDS

BRS: Biennial Reporting System

Source: EPA/NTIS
Telephone: 800-424-9346

The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/31/99
Database Release Frequency: Biennially

Date of Last EDR Contact: 12/17/02
Date of Next Scheduled EDR Contact: 03/17/03

DELISTED NPL: National Priority List Deletions

Source: EPA
Telephone: N/A

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 10/18/02
Database Release Frequency: Quarterly

Date of Last EDR Contact: 11/04/02
Date of Next Scheduled EDR Contact: 02/03/03

FINDS: Facility Index System/Facility Identification Initiative Program Summary Report

Source: EPA
Telephone: N/A

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

NPL LIENS: Federal Superfund Liens

Source: EPA
Telephone: 205-564-4267

Federal Superfund Liens. Under the authority granted the USEPA by the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner receives notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/91
Database Release Frequency: No Update Planned

Date of Last EDR Contact: 11/25/02
Date of Next Scheduled EDR Contact: 02/24/03

PADS: PCB Activity Database System

Source: EPA
Telephone: 202-564-3887

PCB Activity Database. PADS identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 09/20/02
Database Release Frequency: Annually

Date of Last EDR Contact: 11/13/02
Date of Next Scheduled EDR Contact: 02/10/03

RAATS: RCRA Administrative Action Tracking System

Source: EPA
Telephone: 202-564-4104

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/95
Database Release Frequency: No Update Planned

Date of Last EDR Contact: 12/10/02
Date of Next Scheduled EDR Contact: 03/10/03

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

TRIS: Toxic Chemical Release Inventory System

Source: EPA

Telephone: 202-260-1531

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/00

Database Release Frequency: Annually

Date of Last EDR Contact: 12/26/02

Date of Next Scheduled EDR Contact: 03/24/03

TSCA: Toxic Substances Control Act

Source: EPA

Telephone: 202-260-5521

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/98

Database Release Frequency: Every 4 Years

Date of Last EDR Contact: 12/10/02

Date of Next Scheduled EDR Contact: 03/10/03

STATE OF TEXAS ASTM STANDARD RECORDS

SHWS: State Superfund Registry

Source: Texas Commission on Environmental Quality

Telephone: 512-239-5680

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 10/01/02

Date Made Active at EDR: 11/15/02

Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 10/16/02

Elapsed ASTM days: 30

Date of Last EDR Contact: 01/17/03

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SWF/LF: Permitted Solid Waste Facilities

Source: Texas Commission on Environmental Quality
Telephone: 512-239-6706

Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 09/26/02
Date Made Active at EDR: 10/30/02
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 10/07/02
Elapsed ASTM days: 23
Date of Last EDR Contact: 11/25/02

CLI: Closed Landfill Inventory

Source: Texas Commission on Environmental Quality
Telephone: 512-239-6016

Closed and abandoned landfills (permitted as well as unauthorized) across the state of Texas.

Date of Government Version: 08/30/99
Date Made Active at EDR: 10/30/00
Database Release Frequency: Varies

Date of Data Arrival at EDR: 09/28/00
Elapsed ASTM days: 32
Date of Last EDR Contact: 11/05/02

LUST: Leaking Petroleum Storage Tank Database

Source: Texas Commission on Environmental Quality
Telephone: 512-239-2200

Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records, and the information stored varies by state.

Date of Government Version: 11/04/02
Date Made Active at EDR: 12/09/02
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 11/08/02
Elapsed ASTM days: 31
Date of Last EDR Contact: 01/27/03

UST: Petroleum Storage Tank Database

Source: Texas Commission on Environmental Quality
Telephone: 512-239-2160

Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 from the U.S. Fish and Wildlife Service.

Yes	<input checked="" type="radio"/> No	Unk	Yes	No	Unk	Yes	<input checked="" type="radio"/> No
5a. Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the <i>property</i> or at the facility?	Yes	<input checked="" type="radio"/> No	Unk	Yes	No	Unk	Yes	<input checked="" type="radio"/> No

Question	Owner ⁷			Occupants (if applicable)			Observed During Site Visit	
	Yes	No	Unk	Yes	No	Unk	Yes	No
5b. Did you observe evidence or do you have any prior knowledge that there have been previously any damaged or discarded automotive or industrial batteries, or pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the <i>property</i> or at the facility?	Yes	No	Unk	Yes	No	Unk	Yes	No
6a. Are there currently any industrial <i>drums</i> (typically 55 gal (208 L)) or sacks of chemicals located on the <i>property</i> or at the facility?	Yes	No	Unk	Yes	No	Unk	Yes	No
6b. Did you observe evidence or do you have any prior knowledge that there have been previously any industrial <i>drums</i> (typically 55 gal (208 L)) or sacks of chemicals located on the <i>property</i> or at the facility?	Yes	No	Unk	Yes	No	Unk	Yes	No
7a. Did you observe evidence or do you have any prior knowledge that <i>fill dirt</i> has been brought onto the <i>property</i> that originated from a contaminated site?	Yes	No	Unk	Yes	No	Unk	Yes	No
7b. Did you observe evidence or do you have any prior knowledge that <i>fill dirt</i> has been brought onto the <i>property</i> that is of an unknown origin?	Yes	No	Unk	Yes	No	Unk	Yes	No
8a. Are there currently any <i>pits</i> , <i>ponds</i> , or <i>lagoons</i> located on the <i>property</i> in connection with waste treatment or waste disposal?	Yes	No	Unk	Yes	No	Unk	Yes	No
8b. Did you observe evidence or do you have any prior knowledge that there have been previously, any <i>pits</i> , <i>ponds</i> , or <i>lagoons</i> located on the <i>property</i> in connection with waste treatment or waste disposal?	Yes	No	Unk	Yes	No	Unk	Yes	No
9a. Is there currently any stained soil on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
9b. Did you observe evidence or do you have any prior knowledge that there has been previously, any stained soil on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
10a. Are there currently any registered or unregistered storage tanks (above or underground) located on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
10b. Did you observe evidence or do you have any prior knowledge that there have been previously, any registered or unregistered storage tanks (above or underground) located on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
11a. Are there currently any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the <i>property</i> or adjacent to any structure located on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
11b. Did you observe evidence or do you have any prior knowledge that there have been previously, any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the <i>property</i> or adjacent to any structure located on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No
12a. Is there currently evidence of leaks, spills or staining by substances other than water, or foul odors, associated with any flooring, drains, walls, ceilings, or exposed grounds on the <i>property</i> ?	Yes	No	Unk	Yes	No	Unk	Yes	No

Question		Owner?		Occupants (if applicable)			Observed During Site Visit	
12b. Did you observe evidence or do you have any prior knowledge that there have been previously any leaks, spills, or staining by substances other than water, or foul odors, associated with any flooring drains, walls, ceilings or exposed grounds on the property?	Yes	No	Unk	Yes	No	Unk	Yes	No
13a. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that contaminants have been identified in the well or system that exceed guidelines applicable to the water system?	Yes	No	Unk	Yes	No	Unk	Yes	No
13b. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that the well has been designated as contaminated by any government environmental/health agency?	Yes	No	Unk	Yes	No	Unk	Yes	No
14. Does the owner or occupant of the property have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15a. Has the owner or occupant of the property been informed of the past existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15b. Has the owner or occupant of the property been informed of the current existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15c. Has the owner or occupant of the property been informed of the past existence of environmental violations with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15d. Has the owner or occupant of the property been informed of the current existence of environmental violations with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
16. Does the owner or occupant of the property have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property?	Yes	No	Unk	Yes	No	Unk		
17. Does the owner or occupant of the property know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property?	Yes	No	Unk	Yes	No	Unk		
18a. Does the property discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a storm water system?	Yes	No	Unk	Yes	No	Unk	Yes	No

E 1528

Question	Owner	Occupants (if applicable)	Observed During Site Visit
18b. Does the property discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a sanitary sewer system?	Yes <input checked="" type="radio"/> No	Yes No Unk	Yes <input checked="" type="radio"/> No
19. Did you observe evidence or do you have any prior knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the property?	Yes <input checked="" type="radio"/> No	Yes No Unk	Yes <input checked="" type="radio"/> No
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs?	Yes <input checked="" type="radio"/> No	Yes No Unk	Yes <input checked="" type="radio"/> No

PERSONNEL QUALIFICATIONS

BENNIE LEE BENFORD, JR., CAPM

Environmental Engineer/Project Manager

EDUCATION

B.S., Civil Engineering Technology; Chemistry
Texas Southern University, 1991

PROFESSIONAL REGISTRATION

- LPST Corrective Action Project Manager (TX #CAPM00784, 1996)

PROFESSIONAL SUMMARY

Mr. Benford has over 14 years of experience in retail marketing petroleum industry and hazardous waste management; remediation of soil and water treatment; groundwater compliance; Phase I and II; LPST reimbursement preparation and negotiations and RCRA soil and water investigations.

PROFESSIONAL EXPERIENCE

- **Project Engineer and Field Manager** for more than 200 PST assessment projects in Texas and Louisiana. Managed and/or supervised more than 300 underground storage tank closure projects. Coordinated and managed numerous soil and groundwater remediation systems. Supervised field operations associated with soil incineration, dual phase extraction, emergency response and well installation projects. Managed numerous remediation system O&M projects ensuring optimal remedial efficiencies. Performed in excess of 1500 sites monitoring, gauging, and sampling events. Performed several aerial assessments for industrial and real estate transactions. Trained more than 30 field technicians, geologists, and engineers in strict field protocol and QA/QC parameters with regard to regulatory and institutional guidelines.
- **Project Manager** for various projects including RCRA facility investigations, soil and Groundwater investigations, UST closures, Phase I & II Assessments, Risk Assessments and regulatory negotiations.

TRAINING / CERTIFICATIONS

- HAZWOPER OSHA 1910.120 40-Hour Training with 8-Hour Management Training and Annual Refreshers
- Corrective Action Project Manager – TCEQ Certification - 1996
- Motorola – Quest for Quality Training – 1999
- UST Management and Compliance Assistance Seminar - 2000
- Applied Environmental Statistics, Darcy Environmental Group, Inc. – 1999 & 2000
- Texas Risk Reduction Program (TRRP), Groundwater Services – 2001
- MTBE Treatment Technology: Design/Implementation – 2001
- TPDES Multi-Section Storm Water Permit Training- 2002

PRESENTATIONS

- Benford, Jr., Bennie and Tina Luckman, "Phase II Environmental Site Assessments-Due Diligence." Presented to the SBA in Houston, Texas in May 2001.
- Benford, Jr., Bennie and Tim Craft, "Risk Based Assessment for LPST Sites." Presented in Quantum Seminar in Houston, Texas to Chevron, Shell and Texaco in May 1997.
